

It's a Boy!

It's been 4 months since our little boy, Aiden Thames, came into this world on May 9th at 5 lbs. 5 oz. He's not the only one seeing things for the first time. Until Aiden came along I thought that "4 am" was just a theory, now having experienced it many times I can stand up and say that it exists, but I still think it's ungodly to be coherent at that time of the morning. He is very much aware of the things that are going on around him and he must think that he is going to miss some of the action by sleeping, otherwise I don't think that he would put up such a fight.

He's a handsome little boy with a beautiful smile. He has almost tripled his birth weight and is learning new things nearly everyday.

Rest In Peace

Before we were ready with a replacement Molly, our car, skipped out on retirement and checked herself into junkyard heaven. For three months we borrowed vehicles from friends until Molly's replacement finally arrived, a 1994 Nissan Maxima. It is in great condition and fits right in with our little family. Thank you to all who played a part in this adventure through your prayers and giving.

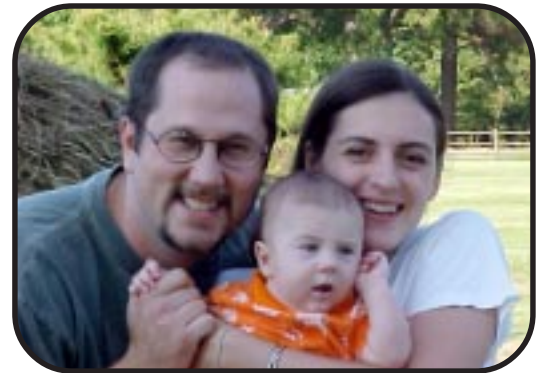

The Web Master

Brett is still over the Web Development in our Communications Dept. His official title is "WebMaster!" Ha! Can you believe that? ...a Master! In the past several months he has made a few web site's, and is excited about the opportunities that the web presents. We have found that many of the people coming to our missions training schools read about us on the web, so we always want to keep it interesting, which allows him to be creative.

Bretts Web Pages—Check Them Out!*

- ywamtyler.org
- mercyworks.org
- etexchallenge.com

* You will be able to view them best if you upgrade to the newest version of your browsers software (ie: netscape or explorer).
